From (Name) G. W. Wells, Esquire, M.A., I.C.S.,

(Designation) Dt. Magistrate of South Kanara.

To The Secretary to the Government of Madras,

Law (General) Department,

M a d r a s.

Sir,

The Agents of the Burma-Shell Oil Storage and Distributing Company of India, Ltd., Madras have applied for a special licence for the storage of 20,000 gallons of dangerous petroleum in the underground petrol tank at the Bulk Petrol Depot of the Company at Mangalore. The work of the installation has been executed in accordance with the plans approved by the Chief Inspector of Explosives, India and it has been inspected by the Sub Divisional Officer, Public Works Department, Mangalore and has been certified to be structurally sound in Executive Engineer's letter No.3763 M. dated 23rd October 1930 (enclosed in original).

2. The Company has paid Rs.105/- - Rs.80/- being the licence fee and Rs.25/- being the fee for the safety certificate. The licence fee has been credited to the Treasury as per chalan No.489/108, dated 23rd August 1930 (enclosed). The fee for the safety certificate was not credited to the Treasury, as attempts were made to get the work inspected by a private Engineer to save delay. As this was not possible, the Public Works Department was requested. The amount will be credited to the Treasury. The capacity of the tank for which a licence has been applied for is 20,000 gallons. I recommend the issue of the licence applied for.

3. The blue prints approved by the Chief Inspector of Explosives, India are enclosed for information and favour of return to the Company with licence at Madras.

Your obedient servant,

For Dt.Magistrate.

Stg 6/11/30.

Rule 1, Chapter IV, Part II
"Save as provided in Rules 9, 10, 13 and 14 of this Chapter every licence for the possession of petroleum shall remain in force until the 31st Dec. next following the date of issue of the licence"

Special License to possess dangerous petroleum in one receptacle containing more than sixty five gallons.

(Rule 6 Chapter IV of Part II of the Petroleum Rules)

No.

Fee Rs. 80 (Eighty only)

License is hereby granted to the Burma Shell Oil Storage and Distributing Company of India Ltd. Madras for the storage in the licensed premises described below of 20,000 (twenty thousand) gallons of dangerous petroleum in one tank subject to the rules for the storage of petroleum published in Notification No.441, dated 24th July 1909 and to the further conditions on the back of the license.

Fort St. George.

Dated the Nov. 9 30

Secretary to the Government of Madras.
Land (Fl) Dept.

(Description of the licensed premises above referred to).

The licensed premises are situated in the Company's installation at Mangalore and consist of- a pre fabricated tank of a capacity of 20,000 gallons sunk underground.

P.T.O.

CONDITIONS OF LICENSE.

1. The petroleum shall be stored in one gas-tight metal tank of a capacity of 20,000 gallons sunk completely underground in the position shown on plan submitted, and placed in a pit, the tank being packed round with sand, earth or clay, so that no air space is left below ground level and the tank is not visible.

2. A pump or pumps shall be placed in the position shown on plan submitted and all joints, valves and cocks shall be gas-tight.

3. All tanks, pumps, pipes and fittings shall be strongly constructed of the best materials.

4. All tanks shall be fitted with a vent pipe leading into the open air, the open end being covered with brass gauze, 32 mesh, and fitted with a hood or the open end shall be fitted with an inlet valve and an exhaust valve.

5. If the licensing officer call upon the holder of a license by a notice in writing, to execute any repairs to the storage premises, which may, in the opinion of such officer, be necessary for the safety of the said premises, the holder of the license shall execute the repairs within such period, not being less than one month from the date of receipt of the notice as may be fixed by the notice.

6. The tank, before being repaired, shall be cleared of all dangerous petroleum and of all dangerous vapours arising from the same. When a tank in position is open for cleaning or repairs no lamps of any description either ordinary, electric, electric torches or electric cables or electric fans shall be brought near the manhole of the tank (the inside of the tank may be lighted by the use of mirrors).

7. The license holder is prohibited from delivering any quantity of dangerous petroleum exceeding three gallons to any one who has not a license under section 5 or section 6 of the Act.

8. All due precautions shall be taken for the prevention of unauthorised persons having access to any petroleum kept and to the vessels containing or having actually contained the same.

9. Every person managing or employed on or in connection with the storage premises shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary, and shall prevent any other person from doing such act. No fire or naked light shall be allowed to burn and no smoking or the lighting of any match shall be permitted except in those places set apart for the purpose and approved by the Chief Inspector of Explosives in India.

10. The storage premises shall be liable to inspection by an officer not being of lower rank than a Sub-Inspector of Police authorised by the Local Government in this behalf.
